

SPECIALIZED TRAINING PROGRAM FOR OIL TANKER OPERATIONS (TASCO)

INTRODUCTION

This DG Shipping approved course is a mandatory requirement for officers to serve on board Oil Tankers at Management level as per STCW-95 regulation V/1. This STCW regulation specifies that Masters, Chief Engineers, Chief Mates, Second engineers and any person with immediate responsibility for loading, discharging and care in transit or handling of chemical cargo shall complete an approved specialized training program which cover the subjects set out in section A-V/1 of STCW code appropriate for their duties on oil tankers.

At ARI the course syllabi covers the requirement of STCW, DGS and the IMO model course 1.02. On successful completion; a candidate is issued a certificate to this effect.

OBJECTIVE

Successful completion of this course should enable the participants to take immediate responsibility for loading, discharging and care in transit or handling of cargo on oil tankers, provided they hold and appropriate certificate and are otherwise qualified in accordance with regulation V/1-2.2 of the International Convention on Standards of Training, Certification and Watch keeping for Seafarers 1995.
